WARNINGS AND NOTICES

IMPORTANT SAFETY INSTRUCTIONS

▪ Read these instructions
▪ Keep these instructions
▪ Heed all warnings
▪ Follow all instructions
▪ Do not use this apparatus near water
▪ Clean only with dry cloth
▪ Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
▪ Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat
▪ Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
▪ Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
▪ Only use attachments/accessories specified by the manufacturer.
▪ Unplug this apparatus during lightning storms or when unused for long periods of time.
▪ Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
▪ DO NOT expose the apparatus to dripping and splashing. DO NOT put objects filled with liquids, such as vases on the apparatus.
▪ WARNING: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

CAUTION
The motherboard is provided with a replaceable lithium battery. There is a danger of explosion if a battery is incorrectly replaced. Replace the battery only with the same or equivalent type.

WARNING
▪ The apparatus shall be connected to a mains socket outlet with a protective earthing connection. Substitute cords may not provide adequate fault protection. Only use the power cord supplied with this product or an Incredible Technologies, Inc. authorized replacement.
▪ The mains plug or an appliance coupler must remain readily operable.
▪ Use of unauthorized parts or making any unauthorized modifications will void the warranty and may result in the game operating in an unsafe or incorrect manner.
▪ If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.
▪ This cabinet is not suitable for installation in an area where a water jet would be used. The cabinet must not be cleaned by a water jet.

NOTICE
▪ This game is intended to be operated for amusement purposes only. It is not to be operated in violation of any federal, state, or local laws or regulations. As the owner and/or operator of this game you are responsible for its operation in compliance with such laws and regulations. The factory settings for this game may require adjustment in order to comply with the laws and/or regulations in the jurisdiction where the game is located. It is the sole responsibility of the operator to determine what laws and/or regulations are applicable and to make any adjustments to the game before operating it for its intended purpose.
▪ This manual and the information contained within is subject to change without notice.
▪ The Showpiece cabinet is intended for use with the Showpiece Integrated Stand (Model 304S) Use of any other integrated or physically attached stand or other hardware is not intended: IT does not approve or inspect any third-party products for use with its Showpiece cabinet. Any damage or injury caused by use of other integrated stand or physically attached hardware is not covered by warranty and IT specifically disclaims any and all liability for such damage or injury.
WARRANTY, REPAIR, AND RETURN POLICY

- 90-day warranty on all electronic components. All warranty periods begin on the date of purchase from Incredible Technologies, Inc.
- There is a minimum $75.00 service charge for all non-warranty repairs or returns.
- For all servicing, return to Incredible Technologies, Inc.
- ANY non-factory repair or attempted repair voids warranty.

RETURN MERCHANDISE AUTHORIZATION

- All returned merchandise must have a Return Merchandise Authorization (RMA) number marked clearly on the outside of the package.
- You must obtain all RMA numbers from Incredible Technologies. Please have the product's Cabinet Identification Device (CID) number available when calling for an RMA number.
- Merchandise returned without an RMA number will not be accepted.
- Warranty may be void if serial number or security labels are tampered with or removed. Opening the Nighthawk Chassis system will void your warranty.
- Advance replacement hardware will be shipped to the customer address on file unless specified otherwise.
- Advance replacement hardware will be billed to the customer until Incredible Technologies, Inc. receives the returned merchandise, at which time a credit will be issued.
- All repairs and/or replacements will ship as soon as possible after receipt or request (subject to availability).

PAYMENT FOR AND STORAGE OF REPAIR MATERIALS

- Materials sent to IT for repair must be paid for according to current price schedules and in a reasonable time. Storage fees for repaired equipment will be charged at a rate of $50.00 (Fifty US Dollars) per calendar month or fraction thereof after 90 (Ninety) days from notice to the customer that the repairs are complete. IT reserves the right to resell repaired equipment to cover accumulated storage charges when the accumulated storage charge reaches 100% (One Hundred Percent) of the repaired items’ then-current replacement cost.

- INCREDIBLE TECHNOLOGIES, INC
GT HOME SUBSCRIPTION TERMS AND CONDITIONS

If your GOLDEN TEE HOME subscription was not set up when your unit was purchased, you should either call 847-870-7027 or email goldenteehome@itsgames.com from your registered email address to request account activation. You will receive instructions or a call back to get you set up. The following terms and conditions apply:

1) There is a subscription fee for access to the GOLDEN TEE HOME network service. It may be paid either monthly or yearly. The current rate can be found on IT’s website http://home.goldentee.com, by calling 847-870-7027, or emailing goldenteehome@itsgames.com and inquiring.

2) To set up a subscription you must provide a charge card number or other information that can be billed on a recurring basis. Your subscription will remain active until either you or IT elect to cancel it, and will be rebilled each billing period. IT will not send you a reminder or an inquiry before rebilling your card.

3) If your billing method fails, IT reserves the right to retry it a number of times or to let your subscription lapse, or both. IT may not contact you before we do either of these things. It is your responsibility to ensure that you have a good payment method on file with IT.

4) Subscriptions can only be cancelled by calling 847-870-7027 or emailing goldenteehome@itsgames.com

5) There are no refunds for partially billed subscription periods.

6) IT is not liable for connectivity problems that may interfere with your ability to connect to the GOLDEN TEE HOME network service. Connectivity problems should be discussed with your Internet Service Provider. IT will not provide technical assistance for network connectivity problems unrelated to the unit itself.

7) IT does not provide Internet access as part of the GOLDEN TEE HOME network service. You must have an adequate connection to the Internet for the unit to be able to connect with our network.

8) IT will from time to time, either on a scheduled basis or as required, take the GOLDEN TEE HOME network service off line for maintenance. Maintenance outages are considered a reasonable and customary interruption in the provision of the GOLDEN TEE HOME network service. No credits or refunds will be issued for unplayable periods during such maintenance.

9) While your subscription is active, IT will use reasonable efforts to provide you with access to the service. However, any refund or credit for downtime or other problems shall be at IT’s sole discretion. Your sole remedy for such downtime is to cancel your subscription to the service.
PERPETUAL SOFTWARE LICENSE

Incredible Technologies, Inc. ("IT") hereby offers you ("Licensee") the right to install and use certain copyrighted computer software produced by IT under the following terms and conditions. This License shall govern the use of the software known as “Golden Tee GOLF Home Edition” ("Update") either as supplied installed on an IT Golden Tee GOLF Home Edition cabinet or when applied as an update to pre-existing Golden Tee GOLF-equipped hardware (either form of cabinet collectively “GT Cabinets”) equipped with an earlier version of any other IT software, including but not limited to previous versions of the Golden Tee GOLF Home Edition software ("Prior Version.")

1) Licensing Fee
The Licensing Fee ("LF") shall be as follows:
- US$0.00 (Zero United States Dollars and zero cents.)

2) Term
The License shall be valid on the first date that both the LF is paid for the Update and it is installed on a GT Cabinet. If the Update has been offered or sold to you under the terms of a Term Software License, the terms of this License shall become applicable if and when the Term Software License terminates in favor of this Perpetual Software License, as set forth in the Term Software License. The term shall be perpetual and throughout the Universe for the Update on the GT Cabinet upon which it is installed at the time the LF is paid. Updates are not transferrable to any other GT Cabinet, for any reason. If a GT Cabinet with an Update is destroyed or otherwise taken out of operation, this License shall terminate.

3) License Rights
Licensee shall have the right to utilize the Update on authorized GT Cabinets in the normal course of business and as controlled by the Rules of ITNet, as set forth in a separate “Operator Agreement” document, the terms and conditions of which, where not conflicting with the terms and conditions herein, are hereby incorporated by reference. Updates may only be operated on GT Cabinets which are installed in commercial locations, as that term is defined by IT, and to which there is general access by all parties with a general right to enter the location where the GT Cabinet is operated.

4) Legal Operation
Updates include various features which may not be lawful to operate in any given jurisdiction. No provision of any feature, or its licensure to Licensee under the terms herein shall be deemed as advice that operation of that feature is lawful or not lawful in any given jurisdiction. Licensee shall make reasonable efforts to disable any user-adjustable feature which they know or should have known as not lawful to operate in the location where a GT Cabinet with an Update is being operated.

5) Termination and Rollback
In the event that this License is terminated for whatever reason, Licensee shall have absolutely no right to operate any GT Cabinet upon which an Update has been installed. IT reserves the absolute right, at its sole discretion, to terminate the operation of any GT Cabinet upon which an unlicensed Update is installed. If Licensee wishes to restore such a GT Cabinet to operating condition without acquiring a new License for the Update, IT will rollback that GT Cabinet, at no charge to the Licensee, to the Prior Version upon return (at Licensee’s expense) of the required hardware to IT’s service center.

6) Governing Law and Jurisdiction
The validity and construction of this License and of the rights and obligations set forth herein shall be determined and governed by the laws of the State of Illinois. The parties hereby submit to the Jurisdiction of any state or federal court in Cook County Illinois. Licensees operating outside the borders of the United States of America, regardless of their citizenship or residency, explicitly agree to allow any assets they may have in the USA or any other foreign country to be attached, garnished, forfeited or otherwise reached by any legal act if, after due process of law, they are found to be liable to IT for damages by reason of breach of this License.

7) Warranty
If the Licensee discovers any physical defect in the media (disk, EPROM, flash media, etc.) on which the Update is distributed or in the documentation, which in the opinion of Incredible Technologies, Inc. (IT) prevents the product from being used as reasonably intended, IT will replace the media or documentation at no charge. The purchaser must return the item to be replaced, with proof of purchase, to IT within 90 days after taking delivery of the Update.

8) Disclaimer and Waiver of Remedies
Acceptance of this License and installation of the Update includes disclaimer and waiver of any and all implied, statutory, or common-law warranties, including warranties of merchantability and fitness for a particular purpose, and limits the purchaser's remedy to returning the Update to IT for replacement.

IT makes no warranty or representation, either express or implied, with respect to Updates, their quality, performance, merchantability, or fitness for a particular purpose. Updates are licensed “as is,” and the Licensee, by installing the Update, assumes the entire risk as to their quality and performance other than as explicitly set forth herein.

Acceptance of this License and installation of the Update includes disclaimer and waiver of any and all direct, indirect, special, incidental, or consequential damages arising out of the use or inability to use the Update, even if advised of the possibility of such damages. The warranty and remedies set forth above are exclusive and in lieu of all others, oral or written, express or implied. No person, seller, dealer, agent, or employee is authorized to make any modification or addition to this limited warranty.

In jurisdictions which do not allow the exclusion of implied warranties or liability for incidental or consequential damages, acceptance of this License and installation of the Update includes stipulation that the most minimal requirements of the law of those jurisdictions shall govern any additional required additional rights of Licensee.

9) Severability
If any provision of this License shall be held by a court of competent jurisdiction to be illegal, invalid or unenforceable, the parties nevertheless agree that the court should endeavor to give effect to the parties’ intentions as reflected in the provision, and the remaining provisions shall remain in full force and effect.

Golden Tee® Online Home Edition  
© Copyright 2019 Incredible Technologies, Inc. All Rights Reserved. Unauthorized duplication is a violation of applicable law. All other marks are the properties of their respective owners. All rights reserved.
NOTE
PLEASE RETAIN ORIGINAL SHIPPING BOX FOR SERVICE AND REPAIR.

Do NOT perform any installation or repair when the cabinet is powered on. Make sure the cabinet is unplugged from all power sources before and during installation.

Incredible Technologies cabinets are shipped with the USB cables disconnected from the I/O Board and the Cabinet Identification Device (CID). This prevents vibrations during shipment from damaging the contacts on the connectors. These cables must be connected before operating the equipment. IT recommends disconnecting these USB cables whenever transporting the unit.
SHOWPIECE CABINET

SHOWPIECE CABINET CONTENTS
(1) Golden Tee GOLF Online HE Showpiece Cabinet

Shipped inside a plastic parts bag attached to the front of the cabinet:
(1) Marquee Header
(1) Power Cord
(1) Game Manual
(1) HDMI Cable

Shipped inside the cardboard sleeve on the top of the control panel:
(2) Marquee Header Brackets

NOT Included with your Showpiece Cabinet
You will need to supply a digital display for the game's main monitor, and an appropriate stand or wall mount. Be sure that the stand or wall mount is UL listed. Incredible Technologies recommends a 42" HDTV that supports 720p or 1080p for the best presentation and game play. A list of Recommended Mounting Solutions can be found under Purchasing Info and Specs at the following address on the IT web site: https://amusement.itsgames.com/games/golden-tee-live/specs

LEG LEVELER ADJUSTMENT
Once your game is in position at the location, it is necessary to adjust the leg levelers. The leg levelers will help stabilize the game on an uneven floor, and help it from moving or shifting during game play. The game is shipped with the two front and two rear leg levelers installed. Adjust the levelers as necessary to level and stabilize the game.

MOUNT MAIN SCREEN DISPLAY
Position the Showpiece cabinet in front of an HDTV. Incredible Technologies recommends either a 720p or 1080p flat panel HDTV from 42" or larger.

The HDTV can be mounted to a wall or the Incredible Technologies accessory stand Model 304HES. There are many different types of wall mounts available through retail, wholesale and Internet outlets. The wall mount you select must be UL listed. Be sure that the top of the Showpiece cabinet has at least 24" clearance in all directions. Insufficient clearance may result in damage to your display or player injury.

CAUTION – This gaming machine is for use only with Incredible Technologies accessory stand Model 304HES. Use with other stands may result in instability and possibly cause injury.

Recommended height for your display may vary depending on your location and player base. As a general rule, the minimum height of the bottom of the display viewing area should be 42" from the floor.

INSTALL MARQUEE
Your Showpiece cabinet comes with a framed marquee header that can be easily attached to the top of your monitor. The brackets for the header are shipped inside a separate cardboard insert labeled Parts – Do Not Discard within the cabinet packaging. The insert is located on the top of the control panel.

First, attach the two brackets to the back of the universal mounting plate you are using for your HD display. The brackets share the same screws used to affix the display to the mounting plate, and are sandwiched between the plate and the back of the monitor. Once the brackets are in place, slide the marquee frame onto the clips on the two newly mounted brackets. Be sure the tab on the clips rest inside the channel on the marquee frame.
HDTV DIP SWITCH SETTINGS AND NIGHTHAWK SYSTEM BOX

Before turning the game on, make sure the USB cables are connected for the I/O Board and Cabinet Identification Device (CID). The I/O board and CID are located on the left wall under the control panel. The USB cables are on the left side in a cable clip and already connected to the System Box. See Appendix D Showpiece Cabinet Connection Diagram for details.

Nighthawk System Box

DIP Switch Settings for HDTVs
The DIP switch settings in your Showpiece cabinet have been factory set to accommodate a 1080p HDTV connected through HDMI cables. DIP switch bank Sw201 on the I/O Board controls the video resolution for the main monitor. If using a DVI-D connection, or for different resolutions such as 720p, use this chart:

HDTV MONITOR APPLICATION

Notes:
A reboot is required when changing resolutions.
Video and audio connections to HDTVs vary, and may require additional cables not included with the Showpiece cabinet. Also, some displays may not support the resolution needed for your game. Check your display’s manual for additional information.
VIDEO CONNECTIONS FOR HDTV

Golden Tee Golf Showpiece supports 1920x1080 (1080p) and 720p (1280x720) resolutions. Be sure your HDTV is compatible. 1080p is only available on the approved video cards listed on the Video Card Compatibility sheet: https://amusement.itsgames.com/service/manuals.ht

If you plan to use a Single HDTV as your only video output, follow the instructions below:

Connect to HDMI
Connect the HDMI cable (supplied) to the HDMI output on the Nighthawk system. Route the cable through the clip under the lock on the back wall, and down through the access panel on the back of the cabinet. Connect the other end of the HDMI cable to the proper HDMI input on your television.

Set Up Your HDTV
Refer to the HDTV manual to adjust the video signal to match the correct input for your game. Selecting the correct input is commonly found from a system menu accessed from the remote, or an Input Select button on the HDTV.

Note:
Be aware that when connecting any monitor with other than HDMI you will need to use an analog audio connection.

Audio/Video Connections Table

</table>
FINAL CHECK

APPLY POWER
Connect the power cable to the socket on the back of the cabinet. Then plug the cable into a 3-pronged, grounded wall socket. Locate the power switch on the back of the cabinet and turn it ON.

Note: If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.

Watch the game carefully when you first turn it on. Look and smell for smoke. Turn it OFF immediately if there is smoke. Make sure the fan inside the system box is running and the LEDs on the I/O Board are flashing. If not, something is wrong, turn off the game.

Check the Cabinet ID Device (CID) Number
Watch the screen during boot-up and wait for the Golden Tee boot verification screen to appear. Note the Cabinet ID Number (CID) that appears on this screen, and verify that it matches the CID number printed on the back of the cabinet. The screen will automatically time out and boot-up will continue.

Cabinet Temperature
The state of the art Nighthawk hardware is extremely powerful, and therefore generates a substantial amount of heat. Measures have been taken to keep the various components cool during normal use. If overheating occurs, game play and hardware longevity may be affected. Use the Check Cooling menu in the System Setup menus to monitor the temperature within your cabinet. Reach under the front right side of the cabinet and press the Test button to access the game’s System Setup software menu system. Once at the main System Setup menu, use the trackball and Start button to select Troubleshooting Shortcuts, then Check Cooling.

Want to go online and play in a live tournament?
After making all your connections you are ready to get online. First, fill out the Online Subscription Form and e-mail it to jpick@itsgames.com. Please do not attempt to connect to the Internet until the form is submitted. Then follow the instructions in the Online Access Configuration Guide.

The forms can be found at http://amusement.itsgames.com/service/manuals at the GOLDEN TEE GOLF ONLINE HOME EDITION section. The forms and additional information can be found at http://home.goldentee.com/pages/new-owners
KEYPAD

NEW! KEYPAD FOR ONLINE CHECK-IN
If you have an online subscription, you and your friends will need to check in each time you play, so your stats and achievements are tracked and stored. It’s important to always check in with the same ID each time, so your profile and stats are accessible.

For details on installing the Keypad, see the Keypad Installation Guide under Golden Tee LIVE on the IT web site: https://amusement.itsgames.com/service/manuals

No Player Cards Needed!
Your Golden Tee Home Edition now comes equipped with a numeric keypad instead of a card reader. Now instead of swiping a card to check in, simply type in your 10-digit “Cardless ID” and 4-digit PIN to access your personal online profile. There’s no need to wait for a card in the mail or worry about losing them. Just type in your number and play!

Setting Up a Cardless ID
If you have already set up a web account, you can log in and add a Cardless ID to your profile. Log in to your web account on goldentee.com or the GT Caddy app, and go to the Account section.

If you already use a card to check in but have not attached it to a web account, go to goldentee.com and click REGISTER. Then click “I player with a player card, credit card or cardless ID”. Follow the prompts to create your web account, verify your email address, and add a Cardless ID.

If you have never played online, you will need to first register for a web account. Go to https://www.goldentee.com and click REGISTER. Then click on “I have not played with an ID card yet but would like to”. Follow the prompts to create your web account, verify your email address, and add a Cardless ID.

Check In and Play!
Once your Cardless ID has been added to your web account, you can check in each time you play online. Press Start to begin a game, select the number of players and the online game type you want to play, and type in your Cardless ID and PIN when prompted.
GENERAL CABINET MAINTENANCE

Games that are in good working condition, with clear monitors, clean control panels and working trackballs are easier to play and more fun than those in poor condition. It is definitely worth your time and attention to protect your investment with a little common care. Each week, clean the display and wipe down the control panel to bring back that new game look. Test the trackball and buttons regularly to make sure they are playing properly.

CARE AND CLEANING OF RUBBER BUMPER
The rubber bumper on the front of the cabinet’s control panel is made from durable nitrile rubber. Clean it using a mild soap and water solution or blue window cleaner.

NIGHTHAWK AIR FILTER
The Nighthawk System Box comes equipped with an external electrostatic air filter. This filter is held in place by a metal bracket, attached to the system box. The filter prevents debris from entering the system box and damaging the electronic components. A clogged filter will impede airflow, thus building up unwanted heat which can cause damage to your hardware. Be sure to check this filter at least once a month. Remove the filter by sliding it out of its housing. Shake off excess dirt and if necessary clean it with soap and water. Be sure the filter is completely dry before reinstalling the filter.

TRACKBALL MAINTENANCE
The trackball will require periodic maintenance to assure optimum performance. In most cases the inside of the trackball simply needs to be cleaned of any accumulated dust and debris.

To access the inside of the trackball, remove the 6 Phillips head screws that hold the trackball together and remove the top cover. Clean out any dust and debris inside the trackball. Polish the rollers and remove any foreign material that may be on the rollers. Do not lubricate the bearings, as this will only attract more dust. If the bearings do not spin freely it is best to replace the bearing assembly. Inspect the rollers for any nicks that may cause poor performance and replace if needed. Inspect the ball for any nicks and replace if needed.

Parts can be obtained from Happ Controls and is an economical option rather than replacing the entire trackball assembly.

It is critical that the green field ground wire be properly connected to field ground. This prevents the trackball from building a static charge that can cause the game to lock up or reset. A static discharge can also damage the trackball's electronic components, as well as the main system.

CARE AND CLEANING OF COOLING FANS AND VENTS
The hardware that runs Golden Tee GOLF Online HE is quite sophisticated, and many of the chips and processors will get hot very quickly. Like your desktop PC, the Golden Tee GOLF Online HE hardware needs adequate ventilation to work properly. Dust and dirt can be a major cause to overheating and will lead to costly repairs. At least once a month, check to make sure the cabinet and system box fans are working and free of dust and debris. Use a vacuum to clear all the ventilation holes on the cabinet at this time as well.

CAUTION:
Incredible Technologies cabinets are shipped with the USB cables disconnected from the I/O Board and the Cabinet Identification Device (CID). This prevents vibrations during shipment from damaging the contacts on the connectors. These cables must be connected before operating the equipment.

IT recommends disconnecting these USB cables whenever transporting the unit.
SHOWPIECE CABINET REPAIR PROCEDURES

CAUTION
These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.

![Caution symbol]

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated dangerous voltage within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

 NIGHTHAWK SYSTEM BOX
The Nighthawk System Box houses most of the game electronics and hardware in one box that can be easily installed. As with all electronic equipment, the system box should be handled with extreme care. Shock, severe temperature, or sudden impacts can damage the internal components that require costly repair.

**Note:** Turn off power to the cabinet and remove the power cord from the back of the cabinet when performing any of the following.

System Box Removal
1. Unlock the control panel and open to expose the Nighthawk system box.
2. Disconnect all connections to the system box. Be sure all wires and connectors are clear and out of the way. Label the connectors for easy reconnection.
3. Loosen the 6 ⅛" hex-head screws that secure the system box.
4. Carefully lift the system box off the screws and up out of the cabinet.

System Box Installation
1. Unlock the control panel and open to expose the inside of the cabinet.
2. Align the system box onto the 6 mounting screws of the internal slanted panel. The connection ports face up. Once the system box is in place, tighten the 6 ⅛" hex-head screws to secure the box to the panel.
3. Connect the required connections. See the Connections Diagram for more details.

I/O BOARD

**Note:** The I/O Board is game title specific and is not interchangeable with other game titles produced by Incredible Technologies on this system. Dedicated and Retrofit Kit I/O Boards are different and are not interchangeable.
I/O Board Removal
First, unlock the control panel and open to expose the interior of the Showpiece cabinet. Disconnect all connections from the I/O Board. Label the connectors for easy reconnection and move them safely out of the way. Next, remove the six ¼" wood screws that secure the board to the interior left side of the cabinet (as you face the game). Carefully remove the I/O Board from the cabinet.

I/O Board Installation
Place the I/O Board in the proper location on the interior left side of the cabinet (as you face the control panel of the game). Be sure it is oriented properly so the cables reach the board (the USB port on the I/O Board facing the top of the cabinet). Secure the I/O Board to the side of the cabinet with the six ¼" wood screws. Use the factory mounting holes if at all possible. Be sure the board does not “bow” or is not stressed in any way. Once mounted, connect the appropriate connections.

Keypad
Newer IT cabinets have the ability to register players through a keypad box attached at the back or to the side of the cabinet. For details on installing the Keypad, see the Keypad Installation Guide under Golden Tee LIVE on the IT web site: http://amusement.itsgames.com/service/manuals

Cabinet Identification Device (CID)
This device contains a specific ID number that identifies your cabinet. The CID is a permanent number and must be connected to the main system box via the USB cable and working properly in order for the game to operate.

CID Removal and Replacement
If for some reason you must replace the CID, disconnect the USB cable from the CID. This is the only connection to the CID. Next, remove the four ¼" wood screws that secure the CID to the interior left side of the cabinet (as you face the game). The CID is located above the I/O Board. To install a CID, mount the CID in the proper location using four ¼" wood screws. The CID should be mounted so the USB port is facing the top of the cabinet and the electronics are facing the wall.

Note: The Cabinet Identification Device should NEVER be removed from the cabinet, even when replacing any of the other components. The CID is the cabinet’s PERMANENT Identifier, regardless of any other components.

Lock
The lock on the rear of the Showpiece cabinet allows access to the Nighthawk system box under the control panel.

Service Button
Mounted under the outer edge of the Showpiece cabinet are controls for System Setup. Reach under the rounded ledge on the front right side of the cabinet and press the red button to access the game’s System Setup software menu system. The System Setup menus cover a variety of important areas including tests, game adjustments, and optional settings.

CONTROL PANEL
Opening the control panel provides access to all game controls and hardware components. To open the control panel, simply use the supplied key in the lock on the back of the cabinet and lift from the back. The control panel is hinged in front and will stay open when fully extended.

Soft Power Switch
A “soft power” switch has been added to the underside of the control panel, to assist in the update process. This switch will turn off power to the cabinet so you don’t have to reach around to the main power switch located on the back of the cabinet.

Note: If you turn power off using the Soft Power Switch, you must use this same switch when turning power back on.
Trackball Replacement
To replace a trackball, open the control panel and remove the 4 long screws holding the trackball in place. Be careful not to lose any of the screws, washers and lock washers. Disconnect the wire harness and ground wire and remove the old trackball. Position the new trackball in the proper orientation over the existing standoffs. Make sure that the arrow on the trackball that points to the monitor is pointing up. Replace the 4 long screws and washers. Do not over tighten! Screw in until the lock washer is fully compressed. Reconnect the wiring connector and ground wire.

Note: The field ground wire is critical to avoid electrical problems and assure optimal performance.

Button Replacement
All of the buttons on the control panel require a 1 1/8" inch hole, and are pre-drilled on the dedicated control panel. To remove a button, disconnect the wires from the button assembly by sliding the wires off of the micro switch posts. Next carefully twist the micro-switch assembly off of the button posts. Finally, unscrew the nut to remove the button from the control panel.

Place the new button assembly into the hole and position the smaller side of the micro-switch housing to face the rubber bumper, angled towards the middle. Tighten the supplied nut using a pushbutton wrench. Do not over tighten. Install the micro-switch by snapping it onto the pushbutton assembly by hand. Position the assembly so the micro switch posts face the rubber bumper, angling towards the middle. Reconnect the wires by sliding the wire assembly onto the contact posts of the appropriate micro switch. See the wiring diagrams in the back of this manual.

L.E.D. Lighted Buttons
The Help and Options buttons on Golden Tee GOLF Online HE are Light Emitting Diode buttons. The housing for the L.E.D. snaps into the back of the button assembly. The L.E.D. must be installed properly for the light to function properly. The Anode/positive side of the L.E.D. is connected to the +5 volts, and the Cathode/negative side of the L.E.D. is connected to the appropriate signal wire. The L.E.D. slides into the housing and the housing is marked Positive and Negative. See the lamps connector J202 in the cabinet wiring diagram in Appendix D.

Control Panel Removal
To remove the control panel from its hinge, Disconnect the trackball cable, field-ground wire, and the control panel interconnect connector to the I/O Board. Remove the screw that attaches the safety cable to the control panel. Remove the four ¼" screws holding the panel to the hinge.

Control Panel Graphics Removal
The control panel artwork has been screened onto a solid sheet of polycarbonate, which is resistant to scratches and burns. Unfortunately long exposure to excessive situations may damage the surface over time. To remove and replace this piece, the pushbutton and trackball assemblies must first be removed. Separate the polycarbonate piece from the wood portion of the panel by starting at one corner and slowly peeling the two apart. The overlay has adhesive on the entire surface and will take some force to separate the pieces due to the adhesive. Once removed, the graphic overlay will not be able to be used again.

Control Panel Graphics Installation
To install a new polycarbonate graphics overlay, make sure the wood control panel surface is clean, smooth, and free from glue, dirt and debris. Remove the paper protecting the adhesive from the new artwork/cover panel. Carefully place it on the wood panel, aligning it properly. Press and smooth firmly to assure that it is secure. Replace the buttons and trackball in the correct orientation.
SYSTEM SETUP MENUS

NAVIGATING THE MENU SYSTEM
The System Setup menus cover a variety of important areas including tests, game adjustments, and optional settings. You should familiarize yourself with these menus because they are important for changing your game cabinet settings.

ENTERING SYSTEM SETUP MODE
There are two ways to enter System Setup. Reach under the front right side of the cabinet and press the red button to access the game’s System Setup software menu system. Or, from the I/O Board, move the DIP switch SW202 position 4 to the ON position. This switch needs to be moved back to OFF to exit the System Setup menus. Refer to the diagram in Appendix D for all DIP switch settings.

SELECTING A MENU
A menu option can be selected at any time by rolling the trackball up or down or by pressing the Left or Right buttons.

CHOOSING A MENU/OPTION
A menu option can be chosen at any time by pressing the Start button.

CHANGING A VALUE
A value can be changed at any time by rolling the trackball left or right.

MAIN MENU
The Main Menu displays five main areas that make up System Setup mode. Please familiarize yourself with these areas, as they will help you maximize your earnings potential.

Collections & Earnings (Not Available)
Not available on Golden Tee GOLF Online HE.

General Settings – See Page 12
This area allows you to change adjustments, perform system tests, and reset your game back to factory settings.

Troubleshooting Shortcuts – See Page 20
This section presents a variety of tests and menus that will help you troubleshoot any problems you may be having with your game. The available sections are also accessible through the other main sections.

Golden Tee Settings & Audits – See Page 21
This area allows you to adjust settings specific to Golden Tee GOLF Online HE including the game adjustments, game audits and leaderboards.

ITNet Settings See Page 24
This section details various ITNet settings, such as game registration and connection settings with ITNet.

Exit
This will exit the System Setup menus and take you back into the game’s attract mode.
GENERAL SETTINGS
The General Settings menu has various adjustable settings relating to the cabinet, and is divided into two sections.

Operator Adjustables
This area allows you to adjust options like volume and attract mode sounds.

System Tests
This area allows you to perform diagnostics including video adjustments, input tests, and sound tests.

Back
This will take you back to the Main Menu.

OPERATOR ADJUSTABLES
Operator Adjustables lets you change the game mode and show all advertisements, change sound settings and reset to factory defaults.

General Adjustments
This allows you to adjust options like game mode and advertisements.

Money Slot Adjustments (Not Available)
Not available on Golden Tee GOLF Online HE.

Sound Adjustments
Allows you to adjust the various sound settings including attract mode sounds, game volume, and stereo setup.

Collection Settings (Not Available)
Not available on Golden Tee GOLF Online HE.

Reset to Factory Settings
This option allows you to reset all the settings to factory defaults.

Back
This will take you back to the General Settings menu.

GENERAL ADJUSTMENTS

Allows you to adjust game mode and advertisements settings.
UPPER MONITOR SETTINGS
Allows you to check and adjust the upper monitor connection
and output.

SOUND ADJUSTMENTS

In Game Volume
This option lets you adjust the In Game volume from OFF to
100%. **The default is set to 30%.**

Attract Volume
This option lets you adjust the Attract Mode Volume from OFF
to 100%. **The default is set to 30%.**

Attract Mode Sounds
This adjusts how often sounds are played in the attract mode:
Never, Rarely, Sometimes, Often, and Always. **The default is set to On - Sometimes.**

Stereo/Mono
This option is where you select stereo or mono setup. **The default is set to Stereo.**

Reset Values
This resets all values to their default value located on this page.

Back
This will take you back to the **Operator Adjustables** menu.

RESET TO FACTORY SETTINGS
This resets ALL settings to their default values. A verification
screen will display to make sure you agree to the change.

Please Note:
This process may take several minutes to complete.
SYSTEM TESTS
This area allows you to perform diagnostics including video adjustments, input tests, and sound tests.

Video Tests
This area has tests that will help you to adjust your game’s color, contrast, and screen size.

Sound Tests
This area has tests that will help you adjust your game’s audio setup by playing a stored sound, a streaming sound, and testing the speaker(s).

Player Control Tests
This option allows you to test all inputs.

Mechanical Meter (Not Available)
Not available on Golden Tee GOLF Online HE.

Hardware Tests
This area includes a series of diagnostic screens and tests to help you make sure your game is functioning correctly.

Back
This will take you back to the General Settings menu.

VIDEO TESTS
The Video Tests section has a variety of tests that will help you adjust your monitor.

Color Test
This area will take you to a series of tests to adjust your monitor’s RGB settings to have each color display properly.

Contrast Test
This area will take you to a series of tests to adjust your monitor’s brightness/contrast so the game displays properly.

Screen Size Adjustments
Use this screen to align your monitor so that all the circles appear as circles and the boundary line appears on the edge of each side of the screen.

Back
This will take you back to the System Tests menu.
COLOR TEST

Color Grid Adjustment
Adjust your monitor to have each colored box display properly.

Red Screen
Adjust your monitor to have red display properly.

Green Screen
Adjust your monitor to have green display properly.

Blue Screen
Adjust your monitor to have blue display properly.

Back
This will take you back to the Video Tests menu.

CONTRAST TEST

White Screen
Adjust your monitor to have white display properly.

50% White Screen
Adjust your monitor to have 50% white display properly.

25% White Screen
Adjust your monitor to have 25% white display properly.

Black Screen
Adjust your monitor to have black display properly.

Contrast Screen
This option is a test you can use to adjust your monitor’s contrast and brightness settings to have the boxes displayed properly.

Note: May not work on older or often used monitors. If you have a monitor that’s old or has been used often you may not be able to adjust the contrast and/or brightness levels accordingly. In this case adjust the monitor for best performance while getting close to the recommended settings.

Contrast Screen
This option is a test you can use to adjust your monitor’s contrast and brightness settings to have the boxes displayed properly.

Back
This will take you back to the Video Tests menu.
SCREEN SIZE ADJUSTMENT
Use this screen to adjust the size and aspect ratio of your picture. Press the Start button to exit.

You may need to adjust this screen to see the complete image. Use the trackball to highlight BIGGER or SMALLER and press the Start button to adjust the screen image. Press DONE to exit.

Note: Adjusting the screen size will prompt a reboot upon exit of this menu.

SOUND TESTS

Stored Sound
This will play a stored sound so you can make sure your audio setup is functioning properly.

Streaming Sound
This will play a streaming sound so you can make sure your audio setup is functioning properly.

Speaker Test
This test will say MONO if you have your game set to Mono or LEFT and RIGHT if you have it set to stereo so you can make sure your audio setup is functioning properly.

Back
This will take you back to the System Tests menu.

PLAYER CONTROL TESTS
Some of the features on this screen, such as Coin 1 and Coin 2 are not available in the Golden Tee GOLF Online HE.

Use this screen to test all of the inputs, including the trackball, buttons, money slots and card reader. When an input is active the appropriate graphic image will light. Press the Left, Right and Start buttons simultaneously to exit this test screen.

When testing the trackball, the Current value will change depending on the direction the ball is spinning. The Max value will display the largest number reached during the test.

There is no exact number to determine whether a trackball is malfunctioning, but in general the Max number should be close to the same when spinning up and down, and close to the same when spinning left and right.

On the keypad the numbers illuminate when pressed.
HARDWARE/SOFTWARE

System Info
This is a list of your game’s current basic system info.

USB Info
This is a list of your game’s current USB devices.

Version Info
This is a list of your game’s software version information.

Back
This will take you back to the Hardware Tests menu.

SYSTEM INFO
This is a list of your game’s current basic system information, including Hard Drive, CPU and Video Card.

Back
The Back button takes you back to the Hardware/Software menu.

USB INFO
This is a list of your game’s current USB devices.

Back
The Back button takes you back to the Hardware/Software menu.
**VERSION INFO**

This is a list of your machine’s software versioning.

**Back**
The Back button takes you back to the Hardware/Software menu.

**CHECK HARD DRIVE**

**Check File Data**
This test checks the integrity of your hard drive’s data. Select **Begin Test** to initiate the process.

*Note: This test can take up to 3 hours to complete.*

If this test succeeds you will see the message: **Status: Hard Drive Functioning Properly.** If this test fails, you will see the message: **Hard Drive Error (#)**

Select **Back** to skip the test and return to the Check Hard Drive menu.

**Check File System**
This test REBOOTS YOUR GAME and performs a low level systems check of the integrity of your hard drive.

*Note: This can take several minutes.*

**Check Hard Drive Health**
This runs a test on your hard drive to determine its overall condition

**Back**
This will take you back to the Hardware Tests menu.

**CHECK COOLING**

This checks that your game is functioning at the proper temperature and all fans are working. The current status is color-coded for easy viewing. If the results are displayed in green, your cabinet is at normal settings.

**Back**
The Back button takes you back to the Hardware Tests menu.
CHECK CARD READER
This test will check to see if your card reader can read and recognize properly encoded IT and credit cards.

From this screen, insert a card into the card reader. If the card can be read, a message will appear on the screen.

Back
The Back button takes you back to the Hardware Tests menu.

TROUBLESHOOTING SHORTCUTS
This section gathers many of the commonly used tests and menus into one convenient area. Check here first when troubleshooting problems or questions about the integrity of your machine.

The tests that are available in this section are:

Check Card Reader
Check Cooling
Check Hard Drive
Screen Size Adjustments
Communications Settings
Player Control Tests
System Tests
Descriptions of each of these tests and sections can be found elsewhere in this manual.

Back
This will take you back to the Main Menu.

GOLDEN TEE SETTINGS & AUDITS

Golden Tee Settings
This allows you to make custom adjustments to certain features, such as the delay of game timer.

Golden Tee Audits
Allows you to view your game play and reset audits.

Player Cost Schedule
Not available on Golden Tee GOLF Online HE.

Reset Leaderboards & Records
Allows you to clear any or all local Leaderboards and high score screens.

Note: This process may take several minutes to complete.

Back
This will take you back to the Main Menu.
GOLDEN TEE SETTINGS

Note: Some of these settings can be turned “On” but if listed below as “Not Available” they will NOT Work.

LIVE Prizes (Not Available)
Not available on Golden Tee GOLF Online HE.

Delay of Game Timeout
Adjust the timer that senses activity between shots.

Closest To The Pin LIVE (Not Available)
Not available on Golden Tee GOLF Online HE.

Operator CTP
Activate the ability for the game to enter Closest to the Pin (CTP) mode.

Hole-N-Win (Not Available)
Not available on Golden Tee GOLF Online HE.

Money Shot (Not Available)
Not available on Golden Tee GOLF Online HE.

More
Selecting More brings you to a second page of Golden Tee settings.

Locked Conditions
Activates the ability for the game to allow for special contests where course conditions are the same for each player.

Daily Prize Contest (Not Available)
Best score competition with other players from across the country.

Casual Difficulty
You can set the difficulty of the courses for casual games but will not impact glory or stats play. Difficulty settings can be adjusted from 1 (easiest) to 5 (hardest). The default setting is 2.

Pre-game Casual Clothing
This setting allows a random selection of 30 clothing items (including new clothing but not promotional items) available as a quick selection in Casual format. There are 10 random item types of shirts, pants and hats.

Mulligans
Mulligans allow casual game players to retake a bad shot during their game. To disable this feature select OFF.

Allow Casual Straight Shots
This allows casual players the option to choose whether to play with only straight shots or to allow curved shots as in standard settings mode. To disable this feature select NO.

Spotlight Player Settings
These settings allow you to offer prizes for in-home contests based on Golden Tee casual golf game play.

Reset Values
This will reset all Golden Tee Settings to their factory defaults.

Back
This will take you back to the Golden Tee Settings & Audits page.
CASUAL GOLF SPOTLIGHT PLAYER
This allows operators to set the prize for a weekly drawing based on all players who achieved a score of PAR +17 or better.

Prize Settings
This opens This Week’s Prize Settings to set the prize available for the winner of the drawing.

Clear Last Winner
This removes the last winner from the results.

Reset Values
This will reset all Casual Weekly Drawing settings

SPOTLIGHT PLAYER PRIZE SETTINGS

Edit Prize Text
Enter the text that best explains the prize offered. For example, “Free dinner any week night to this week’s winner!”

Remove Prize
Select this option if you do not wish to run a prize drawing.
GOLDEN TEE AUDITS
This section displays various counts and totals for a number of game options. The following values are based on the last reset, the date of which is shown at the top of the screen.

Total Number of 18-hole games
Total Number of 9-hole games
18 hole unregistered contest games
9 hole unregistered contest games
Number of 18 hole stats play
Number of 9 hole stats play
Number of casual 1 hole purchases
Number of 18 hole purchases
Number of 9 hole purchases

Reset Audits
This will reset all audits to zero, and update the date of the last audit reset.

Back
This takes you back to the previous screen.

RESET LEADERBOARDS & RECORDS
Use this menu to reset various machine-specific Leaderboards.

Reset Leaderboards
This leaderboard is displayed after every hole during a casual game. Use this setting to clear the current play data. This option resets all Local Leaderboards.

Reset Course Records
Course records, such as best score on each course, are displayed on various screens during a game and in the attract mode, and replayed in the game’s attract mode. Use this setting to clear all course records and game highlights.

Reset All
Use this setting to clear all Leaderboards, local records and game highlights. This process could take up to a minute to run so please be patient.
ITNET SETTINGS
This section details various ITNet settings, such as game registration and connection settings with ITNet.

Change Location (Not Available)
Not available on Golden Tee GOLF Online HE.

Location Information
This describes the cabinet location.

Communication Settings
This section lets you select and adjust various communication options. It is important for testing the Ethernet signal on your Golden Tee GOLF Online HE cabinet.

Connection Tests
This section tests your communication connections for integrity and reliability.

Re-Activate Modem (Not Available)
Not available on Golden Tee GOLF Online HE.

Back
Select this to return to the Main Menu.

COMMUNICATION SETTINGS
This screen shows the type of communication device that is currently in use, and its status and signal strength.

Configure Ethernet Settings
In some cases it may be necessary to reconfigure your Ethernet settings. See following page.

Back
Select this to return to the ITNet Settings menu.
CONFIGURE ETHERNET SETTINGS
Depending on your system setup, you may need to manually set specific settings for Ethernet to work. Use this menu to enter these settings.

Enable DHCP
Set this to Yes if your service provider or your router hardware has DHCP enabled. DHCP automatically sets the IP, Gateway and Net Mask.

If you edit the IP below to anything other than 0.0.0.0, it automatically changes Enable DHCP to No.

If No DHCP, Static IP
Set this to the IP that your service provider issued, or an IP from your router’s subnet that is not already being used.

If the IP is set to 0.0.0.0, it automatically changes Enable DHCP to Yes.

Gateway
Set this to the Gateway that your service provider issued, or the IP address of your router. Example: 192.168.1.1

Net Mask
Set this to the Net Mask that your service provider issued, or if you are using a router it is typically 255.255.255.0. Example: 255.255.255.0

Test Ethernet
Selecting this will initiate a network connection using your entered network settings for DHCP or Static IP, Gateway and Net Mask. If the connection succeeds, a latency time check is also performed. Results are displayed at the end of the tests. It is a good idea to perform this test anytime you make changes to any of these settings to make sure everything works.

Back
Select this to return to the Communication Settings menu.

CONNECTION TESTS
Use this section to test the connection to ITNet.

Check Latency Time
This test will measure the time it takes for your game to communicate with ITNet. If successful, the delay time in seconds will be displayed.

Force Call to ITNet
This test will initiate a connection with the ITNet system and give a result status.

Back
Select this to return to the ITNet Settings menu.
## TROUBLESHOOTING & REFERENCE

APPENDIX E

GNU General Public License

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification"). Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
   a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
   b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
   c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:
   a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
   b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
   c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not

Golden Tee® Online Home Edition 01/19 Page 35
© Copyright 2019 Incredible Technologies, Inc. All Rights Reserved. Unauthorized duplication is a violation of applicable law.
All other marks are the properties of their respective owners. All rights reserved.
permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded.

In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE; THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

How to Apply These Terms to Your New Programs; If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which anyone can redistribute and change under these terms. To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

One line to give the program's name and an idea of what it does.

Copyright (C) yyyy name of author
This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 59 Temple Place - Suite 330, Boston, MA 02111-1307, USA.

Copyright 2004 Incredible Technologies, Inc. (IT). Certain programs, identified at IT's Website are free software subject to an associated license.

1. Because certain programs are licensed free of charge, see it's website, there is no warranty for such programs to the extent permitted by applicable law. Except when otherwise stated in writing the copyright holders and/or other parties provide those programs "as is" without warranty of any kind, either expressed or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. The entire risk as to the quality and performance of those programs is with you. Should the programs prove defective, you assume the cost of all necessary servicing, repair or correction.

2. In no event unless required by applicable law or agreed to in writing will any copyright holder, or any other party who may modify and/or redistribute those programs, be liable to you for damages including any general, special, incidental or consequential damages arising out of the use or inability to use those programs (including but not limited to loss of data or data being rendered inaccurate or losses sustained by you or third parties or a failure of those programs to operate with any other programs), even if such holder or other party has been advised of the possibility of such damages.

A complete machine-readable copy of the source code of those programs and associated license is available to any third party, at the it website.
