

WELCOME!

Incredible Technologies® congratulates you on your purchase of Arcade Collection Home Conversion Kit!

Designed for Incredible Technologies' Showpiece cabinets that have been introduced since 2009, this converts your current game to a 3-game software package, including *Target Toss Pro*, *Silver Strike Bowling X* and *Power Putt Golf*. Scan the QR Codes in this Welcome Guide to access conversion information.

Home Conversion Requirements

Any conversion to Arcade Collection requires the following:

- ◆ 16:9 aspect ratio HDTV (720p or 1080p)
- ◆ Correct Motherboard and Video Card
- ◆ At least 1 Gigabyte (GB) RAM

To verify that the configuration on your cabinet is robust enough to handle the conversion, please use the [Hardware Compatibility Guide \(PDF 793 KB\)](#).

If your system does not have at least 1 GB RAM, it is necessary to upgrade the RAM in your system. Also, it may be necessary to upgrade the video card. This Guide answers all compatibility questions. *If your System Box has a serial number of 420000 and higher or a Golden Tee with 2013 courses and higher, it will have 1 GB of RAM.*

Let's Get Your Game Converted and Ready to Play
