

MINIGAMES

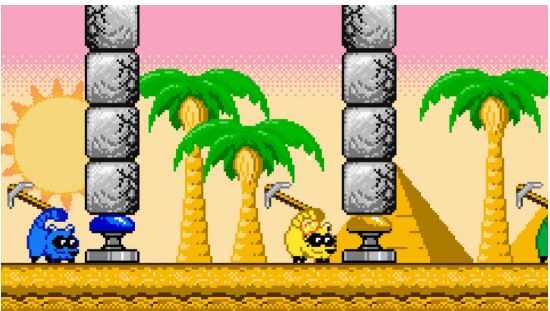

Minigames are randomly chosen so it's rare to play the exact same collection of minigames in two different play sessions. New minigames and content may be added over the internet so you may see changes to gameplay over time. Version 1.36.2 of Retro Raccoons currently has 43 Minigames. Additionally, the Minigames have different variations.

Minigame controls & objectives differ for each minigame but may share some similarities.
